

Exhibitor's with disabilities ALSA form

Each exhibitor that is eligible to participate must show a copy of their IEP (Individual Education Plan) to the Regional Superintendents and National Superintendents. An IEP is provided to all children who have a disability through their school. It is the same requirement that Special Olympics requires for a child to be eligible to participate in that program. Understanding the exhibitor's age to have current IEP's is restricted, and we do have adult exhibitor's as well, an exhibitor may use their last IEP, or contact us to ensure eligibility.

Additional information if needed:

For our admission standards we should determine if they qualified under special education in their state and/or National Special Olympics requirements, or alternatively provide a professional document stating the specific disability. For example the disabilities would include:

Educable, Trainable, and Severely Mentally Impaired, Severe Visual impairment, Moderate to severe Autism, And Physically or Otherwise Health Impaired

This does not include ADHD, dyslexia, ADD, and Emotional impairments.

Qualification to our Regional and Grand National show is that the exhibitor exhibit in one ALSA sanctioned show that year. For instance to enter the 2005 R & GN they have to have attended a show that same year prior to entering the R & GN.
